THE NEW LOGIC OF INVESTING

**YOUR HOLDINGS DETERMINE,
THE IMPACT OF PRICE MOVEMENTS.**

**FROM OBSERVER TO ARCHITECT
OF YOUR INVESTMENT.**

AES focuses on one factor,
often underestimated in investing: your holdings.

AES uses market movements to build
more holdings with the same capital.

PERFECT TIMING? NOT NECESSARY.

**THINK PRICE AND HOLDINGS TOGETHER,
AND EXPAND YOUR OPTIONS.**

A NEW MINDSET FOR AN ENTIRE FINANCIAL WORLD.

**SIMPLE TO UNDERSTAND.

F.I.R.E. 2.0

THE DIVIDEND CODE

**YOUR WEALTH SHOULD SUPPORT YOU.
FOR A LIFETIME.**

FINANCIAL FREEDOM BEGINS WHEN WEALTH BECOMES INCOME.

F.I.R.E. 2.0 combines dividends with a long-term holdings strategy. Accumulated wealth can thus gradually become a source of income, with the aim of preserving the underlying capital.

Returns provide financial flexibility. Your holdings remain the foundation for tomorrow. Retirement planning thus becomes a long-term perspective that extends far beyond wealth accumulation.

**RETIREMENT PLANNING DOES NOT END WITH ACCUMULATION.
THAT IS WHERE ITS IMPACT BEGINS.**

BUILD WEALTH. USE RETURNS. PRESERVE CAPITAL.

**SIMPLE IN ITS LOGIC.
PRECISE IN ITS EXECUTION.**

PHOENIX

RISK REIMAGINED

**WHEN THE PRICE FALLS,
YOUR PERSPECTIVE NEED NOT FALL WITH IT.**

YOUR HOLDINGS DETERMINE THE PRICE NEEDED TO BREAK EVEN.

High-growth stocks rarely move in a straight line. Phoenix offers a different way to respond to significant price declines: Rather than exiting a position too soon, AES creates a new starting point.

The focus is on what can be influenced: your holdings. Growing them strategically can narrow the value gap and give a difficult position a new perspective.

**HOPE IS NO SUBSTITUTE FOR STRUCTURE.
HOLDINGS CHANGE THE STARTING POINT.**

SHOULD NOT BEGIN WITH A SECOND JOB.

SEIZE OPPORTUNITIES. MANAGE RISKS.

BELL gives CFD trading a clear structure. Fixed rules provide a reliable framework for every decision. They help you use market movements deliberately while keeping opportunities and risks equally in view.

This creates an approach that provides clarity, reduces impulsive decisions and is geared toward gradually building a potential source of additional income.

THE BIG WIN IS NOT WHAT MATTERS, BUT WHAT CAN BE REPEATED.

USE MARKET MOVEMENT. GAIN FLEXIBILITY.

FOREX

THE MARKET WITHOUT BORDERS

THE WORLD HAS MORE THAN ONE CURRENCY.

IT HAS RELATIONSHIPS.

In the forex market, one currency meets another. Interest rates, economic conditions and political decisions change their relative strength - creating new movements every trading day.

That is precisely what makes it fascinating: Forex is dynamic, liquid and in motion nearly around the clock, five days a week.

Pips make changes measurable. Lots make their impact manageable.

We make the relationships clear and give you the tools to assess currency pairs, choose your position size deliberately and make decisions within your risk framework.

CALCULATED SPECULATION

THE MARKET REMAINS UNPREDICTABLE.

YOUR EXPOSURE DOES NOT HAVE TO BE.

LARGE VOLUMES REQUIRE A PRECISE STRUCTURE.

Futures make it possible to build market positions with high capital efficiency
and to use both rising and falling movements strategically.

Contract sizes, margin requirements, costs and outcome scenarios are modeled
in advance. This allows larger volumes to be deployed systematically,
positions to be sized precisely and different market scenarios
to be represented transparently.

Predicting every individual price movement is not what matters.
What matters is understanding movement, structure and probabilities.

THE YIN AND YANG OF AI

TWO PERSPECTIVES.

A MORE INFORMED DECISION.

AI BECOMES POWERFUL WHEN IT HELPS US
ASK THE RIGHT QUESTIONS.

AIDEN, THE VISIONARY, OPENS UP NEW WAYS OF THINKING.

He makes the knowledge, experience and mindset behind the Amygdalus Financial World personally accessible. He explains connections and opens up new perspectives.

LUCIEN, THE ANALYST, TESTS WHAT HOLDS UP.

As a critical counterpoint, he questions assumptions, assesses opportunities and risks, making the basis for each decision transparent.

Together, they combine vision and analysis. They help people understand connections and take different perspectives into account.

THE FINAL DECISION REMAINS HUMAN.

A TRUE WIN-WIN SITUATION

ACCESS. JUST THE BEGINNING.

YGLU GROWS WITH THE FINANCIAL WORLD.

Its strength lies in its unique structure.

YGLU is the gateway to the Amygdalus Financial World - and at the same time lays the foundation for its expansion, continued development and new applications.

The Financial World grows stronger when its use sets a cycle in motion.

Part of the capital works within the Financial World. AES uses different markets to continue building holdings.

Generated surpluses are used to expand YGLU's buyback power.

Together, this creates a cycle: the Financial World delivers value to its users. Its performance strengthens YGLU's buyback power - and with it, YGLU's value potential.
